Billing Information

To our patients:

As part of your visit to the John Wayne Cancer at Saint John's Health Center you can expect to receive bills from both the facility and your physician. If you require additional services such as a MRI or review of your pathology slides, additional fees for these professional services will be billed separately. All prices quoted by SJHC are for Hospital facility charges only. Depending on the services that you were provided, you may also receive bills for professional services rendered by hospital contracted Radiologists, Pathologists, Anesthesiologists, or others. These providers may not be contracted with your insurance carrier(s). If you are a Medicare participant, your Medicare Part B benefits will be billed for services received during your visit.

**Please note that aside from co-pays, other charges may apply depending on your insurance coverage.**

For all billing inquiries, as well as providing your insurance information (if you do not have it at the time of service), please contact the following:
