Crystal Fancher, MD is a surgical breast oncologist who has expertise in treating patients with breast cancer and benign breast diseases. She specializes in novel treatments such as oncoplastic breast-conserving surgery and intraoperative radiation therapy.

Dr. Fancher was born in Santa Monica, CA and knew at an early age that she wanted to be a physician. She did her surgical internship at Loma Linda where her passion for breast cancer and women's health was ignited. She continued her general surgery training at Mercer in Macon, GA where she fostered her special interest in the treatment of breast cancer and breast health. She then pursued advanced training at the University of Southern California (USC) / Hoag where she completed her fellowship in Breast Surgical Oncology. She was awarded the 2020 Muzzy Family Fellowship in Oncoplastic Breast Surgery. She is excited to be back in Santa Monica and providing care to breast cancer patients in the community she grew up in.

Welcome Our New Breast Surgeon!

Crystal E. Fancher, M.D., Breast Surgical Oncologist, Margie Petersen Breast Center

Bridging the Gap in Cancer Care

Translational Bioinformatics of COVID-19

JWCI has a long history in translational research, and thus it was no surprise that our exceptional team of physician-researchers were able to quickly pivot and start applying their expertise in immunology and oncology towards researching and understanding COVID-19. Medicine extends beyond the treatment of any given patient and applies a variety of non-clinical specialties, such as biostatistics, genetics, clinical informatics, and molecular biology, to look for predictors on how a disease acts at a population level. Using cutting edge molecular technology and a newly designed clinical informatics database, JWCI’s translational research team has been at the forefront of COVID-19 research, providing much needed information to various hospital-based teams, including cardio-thoracic surgery, endocrinology and pathology, all using a single comprehensive system.

A Doctor’s Perspective

For many cancer survivors, the long-term challenges occur once their treatment ends. In the latest episode of Survivorship Today series, endocrine surgeon and cancer survivorship advocate, Dr. Goldfarb, shared with actor and producer Sterling K. Brown, what we can do to provide ongoing support for this vulnerable community. Watch their full conversation at SurvivorshipToday.com

Congratulations to Tiffany Juarez, Ph.D. for the Mission Spirit Award

Congratulations to Tiffany Juarez, Ph.D., for receiving our Q3 Mission Spirit Award! Tiffany is our incredible Program Manager in the Department of Translational Neurosciences. She is an outstanding and dedicated caregiver who truly lives the spirit of our Mission and Core Values, going above and beyond the call of duty to help everyone at JWCI. She displays our Core Values every day through her passion for science to help patients in our care. Join us in thanking Tiffany for living our Mission during this critical time of service in our ministry and region.

New Podcast by Go Big AND Go Home showcasing Dr. Janie Grumley

New Podcast by Go Big AND Go Home showcasing Janie Grumley, M.D., FACS, Director, Comprehensive Breast Program, Margie Petersen Breast Center at Providence Saint John’s, and Associate Professor of Surgical Oncology at JWCI. Listen to learn how Dr. Grumley navigated her way from being a championship figure skater to a top-notch surgeon, the holistic approach she takes when meeting new patients, and her overall way of balancing a tremendous job where so many people rely on her.

Saint John’s Goes PINK

The Margie Petersen Breast Center at Providence Saint John’s Health Center provides a one-stop, comprehensive, multidisciplinary clinic for an array of supportive services to complement your breast health conditions. Contact us at 310-582-7100 to schedule an appointment.

Welcome Class of 2022 Oncology Fellows

Wade Christopher, M.D.
Surgical Oncology Fellow

Jennifer Keller, M.D.
Surgical Oncology Fellow

Rebecca Marcus, M.D.
Surgical Oncology Fellow

Sean Nassoily, D.O.
Surgical Oncology Fellow

Michael Avery, M.D.
Minimally Invasive Neurosurgery Fellow

Jeannie Su, M.D.
Urologic Oncology Fellow
Cutting-Edge Care

Open Clinical Trials

- All Solid Tumors
- Brain, Head & Neck Cancer
- Breast Cancer
- Gynecologic Cancer
- Hematologic Cancer
- Lung Cancer
- Melanoma
- Urologic Cancer
- Cancer Support
- COVID-19
- View All Clinical Trials

If you are interested in participating in a COVID-19 clinical trial, please contact our team via Email or phone 310-829-8271 to see if you are eligible.

We are one Providence

In Southern California, you know us by many different names. But we are one health system, here for all your health needs. To make it easy for you to access our comprehensive network of care, our family of organizations is uniting under a common brand. This fall, you’ll begin seeing signage at our hospitals with our new logo. Over time, you’ll also see this common brand at all our locations. Since coming together in 2016, Providence Health & Services and St. Joseph Health have been working to improve the health of Southern Californians. The best of both organizations is at the heart of our brand.

We care about your health. Please don’t delay the care you need. Telemedicine (virtual doctor visit) is also available when appropriate.

Grants:

In Q3 we were awarded 6 grants to help us research and fight cancer.

Publications:

In Q3 we had 7 publications! All publications are featured on PubMed.
