

MOASC & ANCO Present:

2023 Immuno-Oncology Symposium

Saturday, November 11, 2023

The Fairmont Hotel in Santa Monica

Immuno-Oncology Symposium *A Hybrid Event* Saturday, November 11, 2023 9am – 5pm Meeting 5pm – 6pm Networking Reception

The Immuno-Oncology Symposium is a few weeks away, but there is still an opportunity to be a part of it. Come and join your colleagues either *in person or virtually* as we delve into the latest advancements in Immuno-Oncology and its optimal clinical application.

This one-day program provides networking opportunities and access to star-studded panels and engaging sessions, like:

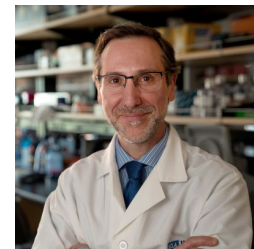

1. Immunotherapy Management Challenges;
2. Combining Immunotherapy with Other Treatment Modalities;
3. Modulating the Anti-Tumor Immune Response; and
4. Best of SITC and much more.

With numerous networking opportunities and dedicated Q&A time allocated at the end of each session, you will strengthen your existing connections and establish new and meaningful relationships. You won't want to miss the Poster Presentations by fellows and residents.

Together, let's create a unique space for knowledge exchange and build a community dedicated to advancing cancer care.

Plenary Speaker:

Toni Ribas, MD, UCLA is an expert in the field of immuno-oncology will deliver our keynote address, sharing his knowledge and expertise on the latest advancements in immunotherapy, novel therapeutic approaches, and clinical breakthroughs.
